

California Proposition 65

The following statement confirms that the product(s) referenced below have been evaluated against California Proposition 65.

Proposition 65 ("Prop 65"), also known as the Safe Drinking Water and Toxic Enforcement Act of 1986, is a Californian law that requires businesses to notify Californians about certain chemicals in the products they purchase. California has published a list of over 900 chemicals covered by Prop 65. The list contains a range of naturally occurring and synthetic chemicals known to cause cancer, birth defects, or other reproductive harm. By law, companies must provide a "clear and reasonable" warning before knowingly and intentionally exposing an individual to a Prop 65 listed chemical.

You can access the Proposition 65 list [here](#).
